

Support bar
(optional)

Size	Dimensions lit	Dimensions boîte	Poids du lit
Twin XL (39" XL)	16" x 38" x 80"	83.5" x 42" x 10"	187 lb
Full (54")	16" x 54" x 75"	77" x 58" x 10"	225 lb
Queen (60")	16" x 60" x 80"	83" x 64" x 10"	269 lb

MAIN FEATURES :

Height Adjustment:

Allows the bed height to be adjusted to make access easier and support daily independence.

Full-Bed Tilt:

7° tilt designed to provide a gentle elevated feeling. Ideal for side or stomach sleepers.

Under-Bed LED Lights:

Creates ambiance and helps make nighttime movement safer.

Anti-Snore:

Gently elevates the head of the bed to help reduce snoring.

Zero G™ Position:

Button that raises the legs and head to help promote circulation and reduce pressure on the lower back.

Wireless Remote with Position Programming:

Ability to program 3 personalized positions.

Support Bar (Optional):

A support bar can be installed directly on the bed to make getting in and out of bed easier.

Compatible with a Headboard:

Compatible with our headboards. Brackets must be purchased separately.

Deck-on-Deck Structure with Lift Safety Panel Cover:

Double-platform structure that supports the adjustment and lifting functions, equipped with a safety panel designed to cover and protect the lifting area.

Safe Return-to-Flat by Double-Click:

Allows the bed to be returned to a flat position using the remote control. The head and foot motors use gravity to bring the bed back to a flat position, rather than applying downward force, helping to minimize pinch points.

Emergency Cable:

In the event of a power outage, the base can return to a flat position by installing batteries in the emergency cable located under the bed.

Smooth Power™ Lift System:

The head and foot motors gradually increase in power when articulated. This allows for a smooth transition between positions.

Zero Standby Power™ System:

This technology allows the base to consume < 1 W (watt) when the base is not in use.

New-Generation SilentDrive™ Motors:

The head and foot motors were designed to help maintain a peaceful sleep environment, as they produce very little noise while in operation.

3-Level Legs:

Adjustable round black 9" legs included: 3", 6" and 9". Different legs can be purchased separately. The design allows the base to function with legs or to be placed directly on a flat surface (Zero Clearance).

Weight Limit:

Maximum capacity of 750 lb, evenly distributed across the surface of the base, including the mattress, bedding and user.

Warranty:

Covered by a 10-year limited warranty and supported by customer service.
